Robert Main
Marine Scotland – Marine Planning & Policy Division
Scottish Government, Marine Laboratory, PO Box 101
375 Victoria Road
Aberdeen AB11 9DB

5th February, 2013

Dear Robert,

Sea Generation (Kyle Rhea) Ltd is proposing to install and operate a 8MW tidal stream array project at Kyle Rhea, a stretch of water between the Isle of Skye and the Scottish mainland.

Please accept this letter as formal application for the Electricity Act 1989 Section 36 consent.

The proposed project would consist of:

- Four SeaGen 2MW devices supplied by Marine Current Turbines Ltd (MCT), installed on pin-piled foundations
- Project substation located close to the shore on Skye
- Export cable, installed using horizontal direction drilling (HDD)
- Inter-array cabling

Further details are included in an Environmental Statement (including Non-Technical Summary, Appendices and associated Figures) submitted to Marine Scotland in support of the consent application.

The application will be advertised in the following publications for 2 consecutive weeks:

- Edinburgh Gazette
- The Independent
- West Highland Free Press

With regard to application fees, the intention is to pay the invoice by BACS, please note the Purchase Order number PO 4500386554 which authorises payment, please quote this PO on the issued invoice.

Please let me know if you need anything more from us at this stage to process the application.

Kind regards,

[redacted]

Joseph Kidd
