Subject: RE: BOWL s36Condition 30 - ECoW

Dear Nicola

Thank you for passing on the details of the ECOW that BOWL propose to appoint as per their consent conditions.

I have spoken with Karen Hall in JNCC, as well as Catriona and we wish to provide the following comments:

We have no objection to BOWL appointing Sarah McNab.

As discussed at our caseworkers meeting last week there are aspects of the role that we would wish to discuss further in the New Year with Marine Scotland and then with BOWL and Sarah. We would wish to jointly agree key terms of reference for the role, including a detailed job plan linking to the proposed plan of work.

Given the timing restrictions for the appointment for the ECOWs for both BOWL and MORL, and in advance of more detailed discussion and agreement between the key interested parties, we would wish further discussion with Marine Scotland prior to the appointment of any further ECOWS in respect of other consented marine renewable projects.

I trust this is assistance.

Please get in touch if you have any queries and I look forward to further discussion in January on the role of ECOWs for MR projects.

Have a good Christmas break.

Erica

Subject: FW: BOWL s36Condition 30 - ECoW

Hi all,

Please find attached information regarding the appointment of Sarah as an ECow for BOWL. As per the condition of the S36 Consent Scottish Ministers in consultation with JNCC and SNH must approve the appointment. Can you please provide comment on Sarah's suitability and if you agree to the appointment. BOWL were previously provided with the SNH comments on appointment of ECoWs and based the appointment on this.
