**Subject:** FW: Beatrice Wind farmL - near shore works - EPS Licence application - advice from SNH

All,

Please see below and attached email. There will be no requirement for BOWL to obtain an EPS licence for the proposed nearshore survey.

Kind regards

Fiona

Dear Lis,

I can confirm that if the mitigation plan Ref: L000005-LET-448/ v02 supplied on 21 April 2016 is applied when conducting BOWL's cable landfall survey there will be no requirement for a licence to disturb marine EPS.

If any changes to the proposed survey are required, please inform MS-LOT immediately to ensure that this advice remains appropriate.

Kind regards

Fiona
