Dear Ms Royle

Beatrice offshore wind farm Review of Archaeological Exclusion Zones

Thank you for your letter and e-mail of 16 October enclosing a copy of the Beatrice Offshore Wind Farm Review of Archaeological Exclusion Zones by Headland Archaeology.

I can confirm that we are content with the contents and conclusions of the Review. We are, therefore, content that Archaeological Exclusion Zones are not required for the seabed features covered by the Review.

Yours sincerely

Deirdre Cameron
Senior Heritage Management Officer, AM
