BOWL Ref: L000005-LET-369

Dear Catarina,

BOWL Marine Licence (Offshore Transmission Works) Condition 3.1.12 and Marine Licence (Offshore Wind Farm) Condition 3.1.12 – Marine Pollution Contingency Plan

Please find enclosed for approval the Marine Pollution Contingency Plan (MPCP) prepared on behalf of Beatrice Offshore Windfarm Ltd (BOWL).

The MPCP outlines procedures to protect Project personnel and to safeguard the marine environment in the event of an accidental pollution event arising from offshore operations relating to the Development, and demonstrate how BOWL have met the requirements of Marine Licence (Offshore Transmission Works) Condition 3.1.12 and Marine Licence (Offshore Wind Farm) Condition 3.1.12, both issued on 2nd September 2014.

It is considered that the enclosed MPCP is sufficient to satisfy the requirements of Marine Licence (Offshore Transmission Works) Condition 3.1.12 and Marine Licence (Offshore Wind Farm) Condition 3.1.12, providing that it is implemented as approved.

We would be grateful if MS-LOT on behalf of the Scottish Ministers could please confirm in writing, following consultation, their agreement and approval of the enclosed MPCP and that in this respect Marine Licence (Offshore Transmission Works) Condition 3.1.12 and Marine Licence (Offshore Wind Farm) Condition 3.1.12 are discharged.

Should MS-LOT or consultees have any comments on the enclosed MPCP, we would welcome them at your earliest convenience.

Yours sincerely,

Jonathan Wilson
Consenting and Stakeholder Manager
