Notice is hereby given that Aberdeen Offshore Wind Farm Limited (Company No SC278869) (registered offices at 3<sup>rd</sup> Floor, The Tun Building, 4 Jackson's Entry, Holyrood Road, Edinburgh, Scotland, EH8 8PJ) has applied for consent from Marine Scotland as set out in the Energy Act 2004 and the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007 (SI No 2007/1948) for safety zones as follows, for the previously consented Offshore Renewable Energy Installation known as the European Offshore Wind Deployment Centre, during construction and major maintenance phases.

The following safety zones are being applied for:

- During the construction phase a programme of 500 metre (m) 'rolling' safety zones around the location of each wind turbine and/or its substructures and foundations during certain construction activities (as identified by a risk assessment).
- Pre-commissioning 50 m safety zones surrounding each wind turbine and/or its substructures and foundations whilst work is not ongoing.
- During the operational phase, a 500 m safety zone around all 'major maintenance' being undertaken on any wind turbine and/or its substructures (as identified by risk assessment). Major maintenance is defined as any activity involving large vessels (such as jack-up barges or heavy lift vessels). No safety zones are planned during normal operations of the wind farm.

The precise start date and co-ordinates of the safety zones will be detailed in the Notice to Mariners prior to their implementation.
