MARINE (SCOTLAND) ACT 2010, PART 4 MARINE LICENSING

LICENCE FOR MARINE CONSTRUCTION WORKS

Licence Number: 06820/19/0

Reference Number: 06820

Scottish Ministers (hereinafter referred to as "the licensing authority") hereby authorise:

BEAR Scotland Ltd
Bear House
Inveralmond Road
Inveralmond Industrial Estate
Perth
PH1 3TW

to deposit in the sea the substances or objects (except for dredge spoil) used in the execution of works described in Part 1 of the attached Schedule. The licence is subject to the conditions of use set out, or referred to, in Part 2 of the said Schedule.

This licence shall be valid from 01 July 2019 until 30 June 2024.

[Redacted]

Signed: _____

For and on behalf of the licensing authority

Date: 28 June 2019

Part 1 - Particulars

1. Name and address of agent acting on behalf of licensee (if appropriate):

As per licensee.

2. Location of works:

Kessock Bridge, Inverness-Shire within the area bounded by joining the points:

57° 30.066' N	004° 14.100' W
57° 30.100' N	004° 14.083' W
57° 29.750' N	004° 13.350' W
57° 29.766' N	004° 13.316' W

As shown in Annex One.

3. Description of works:

Bridge Maintenance Works - Kessock Bridge, Inverness-shire

As described in application dated 05 October 2018, and correspondence submitted in support of the application.

4. Nature and indicative quantity of all deposits below Mean High Water Springs:

All materials deposited below mean high water springs on the Kessock bridge in the course of carrying out maintenance works as described in the application and supporting documentation.

Part 2 - Conditions

1. The licensee must ensure that only the deposits listed in Part 1 of the licence are deposited during the execution of the works and that all substances or objects deposited during the execution of the works are inert and do not contain toxic elements which may be harmful to the marine environment, the living resources which it supports or human health.
2. The licensee must ensure that the works are carried out in accordance with the Record of Determination (Issue 1, dated 10 September 2018), submitted to the licensing authority in support of the application.
3. The licensee must ensure that any debris or waste materials arising during the course of the works are removed from the site of the works for disposal at an approved location above the tidal level of Mean High Water Springs.
4. The licensee must submit a written report regarding the materials used during construction to the Licensing Authority. The written report must be submitted on completion of the works and on the forms provided by the Licensing Authority no later than 31 October 2025.
5. The licensee must notify Source Data Receipt, The Hydrographic Office, Admiralty Way, Taunton, Somerset, TA1 2DN (e-mail: sdr@ukho.gov.uk; tel.: 01823 484444) of both progress and on completion of the works supply a copy of the licence, and wherever possible, 'as built plans', in order that all necessary amendments to nautical publications are made.
6. The licensee must issue a Notice to Mariners in advance of the proposed start date, clearly stating the nature and duration of these operations.
7. The licensee must ensure that HM Coastguard, in this case nmoccontroller@hmcg.gov.uk, The National Maritime Operations Centre is made aware of the works prior to commencement.
8. The licensee must ensure that a copy of this licence is given to each contractor appointed to carry out part or all of the works in order that they are clear about the extent of 'the works' for which consent has been given and the conditions that are attached to the consent.
9. The licensee must consult with the responsible local navigation authority and the Harbour Authority/Commissioners where appropriate, who may wish to issue local warnings to alert those navigating in the vicinity to the presence of the works during the construction.
10. The licensee must ensure that appropriate safeguards are put in place so that any works/personnel suspended from the bridge does not pose a risk to marine users transiting below.
11. The licensee must ensure appropriate steps are taken to minimise damage to the foreshore and seabed by the works.
12. The licensee must ensure the foreshore and seabed are returned to the original profile, or as close as reasonably practicable, following the completion of the works.
13. The licensee must ensure the best method of practice is used to minimise re-suspension of sediment during these works.

14. The licensee must ensure suitable bunding and storage facilities are employed to prevent the release of fuel oils, lubricating fluids associated with the plant and equipment into the marine environment.
15. The licensee must ensure that the works are carried out strictly in accordance with the mitigation measures outlined in the *Statement to Inform Appropriate Assessment* (dated 20 June 2019) submitted to the licensing authority on 21 June 2019.
16. The licensee must prepare and agree a communication plan with Inverness Harbour covering all works authorised by this marine licence. The communication plan should include, but not be limited to:
 - a) Timelines and methods for the licensee to notify Inverness Harbour and other marine users in the area of the planned works, including the duration of such works.
 - b) Timelines and methods for Inverness Harbour to notify the licensee of any vessel movements which may affect planned works authorised by this marine licence.
 - c) A resolution and escalation protocol for any issues
17. The licensee must ensure that no works which reduce the air draught under the central span of the Kessock Bridge commence, until the communication plan in Condition 16 is agreed.
18. If it is desired to display any marks or lights not required by this licence then details must be submitted to the Northern Lighthouse Board and their ruling complied with. The display of unauthorised marks or lights is prohibited.
19. The licensee must ensure that the works are maintained at all times in good repair.
20. The licensee must ensure that no deviation from the schedule specified in the licence is made without the further written consent of the licensing authority.
21. The licensee must ensure that no radio beacon or radar beacon operating in the marine frequency bands is installed or used on the works without the prior written approval of the licensing authority.
22. If in the opinion of the licensing authority the assistance of a Government Department, including the broadcast of navigational warnings, is required to deal with any emergency arising from:
 - a) The failure to mark and light the works as required by licence.
 - b) The maintenance of the works.
 - c) The drifting or wreck of the works.

The licensee shall be liable for any expenses incurred in securing such assistance.

23. In the event of the licensed operations being discontinued the works must be removed and the site cleared to the satisfaction of the licensing authority.
24. The licensee must remove the works from below the level of Mean High Water Springs, or such alterations made, within one month of notice being given by the licensing authority at any time it is considered necessary or advisable for the safety of navigation, and not

replaced without further consent by the licensing authority. The licensee shall be liable for any expense incurred.

25. Any person authorised by the licensing authority must be permitted to inspect the works at any reasonable time.
26. The licensee must ensure that copies of the licence are available for inspection by any authorised Enforcement Officer at:
 - a) the premises of the licensee;
 - b) the premises of any agent acting on behalf of the licensee; and
 - c) the site of the works.
27. In the event of the licensee becoming aware that any of the information on which the issue of the licence was based has changed, the licensing authority must be immediately notified of the details.

NOTES

1. You are deemed to have satisfied yourself that there are no barriers, legal or otherwise, to the carrying out of the licensed operations. The issue of the licence does not absolve the licensee from obtaining such authorisations, consents etc which may be required under any other legislation.
2. In the event that the licensee wishes any of the particulars set down in the Schedule to be altered, the licensing authority must be immediately notified of the alterations. It should be noted that changes can invalidate a licence, and that an application for a new licence may be necessary.
3. Under Section 30 of the Marine (Scotland) Act 2010, the licensing authority may vary, suspend or revoke the licence, if it appears to the authority that there has been a breach of any of the provisions of the licence or for any other reason that appears to be relevant to the authority.
4. Under Section 39 of the Marine (Scotland) Act 2010, it is an offence to carry on a licensable marine activity or cause or permit any other person to carry on such an activity without a marine licence or fails to comply with any condition of a marine licence. It is a defence for a person charged with an offence under Section 40 in relation to any activity to prove that the activity was carried out for the purpose of saving life, or for the purposes of securing the safety of a vessel, aircraft or marine structure ('*force majeure*'), and that the person took steps within a reasonable time to provide full details of the incident to the licensing authority. (Under Annex II, Article 7 of the Convention for the Protection of the Marine Environment of the North-East Atlantic, the licensing authority is obliged to immediately report '*force majeure*' incidents to the Convention Commission).
5. All correspondence or communications relating to the licence should be addressed to:
