Summary of Consultation Responses (Scoping)

Inch Cape Offshore Wind Farm

Public Consultation Exhibitions

To reduce harmful greenhouse gas emissions and increase the amount of energy generated from renewable sources, SeaEnergy Renewables Ltd propose to use deep water engineering expertise from the North Sea to develop wind energy 15-22 km from the Angus coast in the outer Firth of Tay.

If you would like to find out more, please come to one of our public exhibitions where you can discuss the proposals with our project staff and take part in our consultation.

Fife	Dundee	Angus
St Andrews Town Hall Queens Gardens Wednesday 6 October 12noon – 8pm	Discovery Point, Dundee Wednesday 29 September 12noon – 8pm	Montrose Town Hall Friday 24 September 12noon – 8pm
Crail Community Hall St Andrews Road Wednesday 13 October 12noon – 8pm	Discovery Point, Dundee Thursday 14 October 12noon – 8pm	Angus Business Centre Keptie Road Arbroath Tuesday 5 October 12noon – 8pm

Public consultation on our Environmental Impact Assessment Scoping Report runs from 31 August until 30 November 2010. Your opinions and comments are invited. The full Scoping Report is available at www.inchcapewind.com.

For further information, please contact the Inch Cape Project Team, SeaEnergy Renewables Limited, Britannia House, Endeavour Drive, Arnhall Business Park, Westhill, Aberdeenshire, AB32 6UF.

Total Number of Attendees & Questionnaire Responses

Q1 - Do you believe that we should reduce greenhouse gas production by switching to low-carbon energy?

Q2 - Do you support the development of wind energy on land?

Q3 - do you support the development of wind energy in the seas around Scotland's coast?

Q4 - Do you support the development of offshore wind in the outer Firth of Tay?

Q5.1 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Jobs and the local economy

Q5.2 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Tourism

Q5.3 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Fishing

Q5.4 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Birds

Q5.5 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Marine mammals (dolphins, seals, etc)

Q5.6 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Landscape / Seascape / Views

Q5.7 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Greenhouse Gas Production

Q5.8 - Do you believe that the development of wind energy in the outer Firth of Tay will have a positive or negative effect on: Overall Environment
