

## Appendix 22.1 Other Users Consultation Log

### Consultation Responses Received

Date	Recreational User	Communication	Response	Notes
22 <sup>nd</sup> June 2011	Kinghorn Sailing Club	Email sent with information on project and seeking any information that could be provided and any early feedback.	6 <sup>th</sup> July 2011	Information provided that offshore works are is not used by Kingshorn Sailing Club and so on objections raised.
22 <sup>nd</sup> June 2011	Royal Forth Yacht Club	Email sent with information on project and seeking any information that could be provided and any early feedback.	5 <sup>th</sup> July 2011	Confirm that the area is not used by members apart from potential transit during a bi-annual race to Orkney.
22 <sup>nd</sup> June 2011	Forth Yacht Clubs Association	Email sent with information on project and seeking any information that could be provided and any early feedback.	29 <sup>th</sup> June 2011	Pleased with level of consultation. Provided information that Thorntonloch is not a commonly used anchorage, but that yachts can passage through the offshore site. Transit through offshore site encouraged, given appropriate safety and navigational marking etc.
22 <sup>nd</sup> June 2011	Aberdour Boat Club	Email sent with information on project and seeking any information that could be provided and any early feedback.	28 <sup>th</sup> June 2011	Encourage individual members and club as a whole to participate in consultation. Raised issues of yacht passage (have some concern regarding identification of structures, particularly in fog) through offshore site, referring to RYA consultation. Provided information that Thorntonloch is an occasional

Date	Recreational User	Communication	Response	Notes
				anchorage, and encourage minimal disruption at Thorntonloch to ensure continued anchoring allowed.
22 <sup>nd</sup> June 2011	Forth Canoe Club	Email sent with information on project and seeking any information that could be provided and any early feedback.	27 <sup>th</sup> June 2011	Do not expect proposed development to have a significant effect on this Club's activities.
22 <sup>nd</sup> June 2011	Coast to Coast Adventure Sports	Email sent with information on project and seeking any information that could be provided and any early feedback.	27 <sup>th</sup> June 2011	Provided information that Thorntonloch is used by surfers and have some concerns on impact on wave climate at site from offshore site and export cable. Would like continued consultation and information on impacts on hydrodynamics.
<b>Various</b>	Anonymous	Through the project website some correspondence was received from interested parties such as surfers raising queries on impacts on the wave climate.		
<b>27<sup>th</sup> March 2011</b>	Anonymous – various	Meeting held with local surfers and surf school to explain initial information on likely impacts on wave climate and any arising from intertidal construction. Relevant information incorporated into the ES Chapter.
