**Subject:** addendum response

Thank you again for allowing Boarhills and Dunino Community Council an extension in responding to your application and its addendum. Having consulted the other councillors I can now confirm the following: *We are very much against your application, and any further proliferation of wind turbines, and feel local opinion is completely disregarded by the Scottish Government. Our beautiful N E Fife landscape is increasingly blighted by them, and to have many more and even bigger ones offshore will compound this. They are unreliable, inefficient producers of energy and a great danger to sea life and flying birds. We would be prepared to consider wave and tidal energy, as the latter – tidal - is the only absolutely reliable source of green energy.*  
Regards, [REDACTED], Secretary, Boarhills and Dunino Community Council
