Subject: Seagreen Alpha and Bravo Offshore Windfarms - Electricity Act Section 36

Dear Sir/Madam,

Planning Ref: Section 36

Name/Location: Firth of Forth - Phase 1 (Seagreen Alpha and Bravo Offshore Windfarms)

Total 150 Turbines at NGR:

Boundary Point 1 560500 6278000
Boundary Point 2 560500 6264000
Boundary Point 3 580700 6278000
Boundary Point 4 590300 6266000

Seagreen Alpha: 75 turbines
Seagreen Bravo: 75 turbines

Hub Height: 126m Rotor Radius: 84m

(defaults used if not specified on application)

Cleared with respect to radio link infrastructure operated by:-

Local Electricity Utility and Scotia Gas Networks

JRC analyses proposals for wind farms on behalf of the UK Fuel & Power Industry and the Water Industry in north-west England. This is to assess their potential to interfere with radio systems operated by utility companies in support of their regulatory operational requirements.

In the case of this proposed wind energy development, JRC does not foresee any potential problems based on known interference scenarios and the data you have provided. However, if any details of the wind farm change, particularly the disposition or scale of any turbine(s), it will be necessary to re-evaluate the proposal.

In making this judgement, JRC has used its best endeavours with the available data, although we recognise that there may be effects which are as yet unknown or inadequately predicted. JRC cannot therefore be held liable if subsequently problems arise that we have not predicted.

It should be noted that this clearance pertains only to the date of its issue. As the use of the spectrum is dynamic, the use of the band is changing on an ongoing basis and consequently, developers are advised to seek re-coordination prior to considering any design changes.

Regards

Wind Farm Team
