30 October 2013

Dear Robert

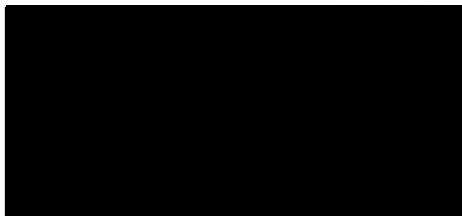

FIRTH OF FORTH SEAGREEN PHASE 1 OFFSHORE PROJECT – ADDENDUM TO SEAGREEN PHASE 1 OFFSHORE ENVIRONMENTAL STATEMENT

Thank you for your correspondence dated 18 October 2013 and the documentation providing addendum to the consent application supporting documents and notification of erratum relating to statements or omission within the submission.

The NLB are content that, having noted the information and sections to which the addendum and erratum have been included, these additional inputs should have no impact on any recommendations we may make.

As previously stated within our response O6_02_150 we can make no firm recommendations or requirements for marking and lighting of all phases of construction, operation and decommissioning until a final layout plan and Navigational Risk Assessment has been provided.

Please advise if we can be of any further assistance, or you require clarification of any of the above.
