| | OS Reference: | 391991 E 818162 N | Horizontal Field of View: | 90° (Cylindrical projection) | Camera: | Nikon D800 | This wireframe is based upon Nextmap25 data with spot heights at 25m intervals aggregated to 50m resolution and does not precisely model small scale changes in landform or sharp breaks in slope. The wireframe model does not allow for the screening effects of vegetation or buildings. The model of turbine shown is similar to that proposed for the development. Please refer to Figure 1 for all viewpoint locations. | | Contains Ordnance Survey data © Crown copyright and database right 2017 © LDA Design Consulting Ltd.
