

B Hicks – Oyster Longline Planning June 2020

Design Brief

Longline planning for the Rousay Sound 2020

Modelling and rendering of Oyster baskets hung from floatation buoys anchored by two points.

- 100m (meters) long total held between 6 floats (20m spacings)
- 25m of rope and 10m of chain to a sea anchor at either end
- sat in 10m of water
- 5 baskets spaced at 1m apart
- baskets height 30cm
- 10mm rope secures baskets
- 32mm rope secures longline
- fish farming cans 1m x 1.5m on both ends
- fish farming cans 1m x 1.2m between end cans
