Dear Kirsten,

00009993 - Caledonian Maritime Assets Ltd (per Arch Henderson LLP) - Slipway Maintenance, Gallanach, Oban

As per our conversations, due to the time elapsed from licence application to issue of the licence, it was not possible to undertake the works on the dates indicated in the licence application.

We thank you for allowing additional time (to account for Easter holidays) when issuing the licence, however, we require to allow the contractor a suitable mobilisation period, and also, the works methodology require the works to be undertaken within a certain tidal range and therefore need to be planned for a suitable low tide window. To appropriately plan and execute the works, we request an extension to the licence until the end of July 2023. There is no change to the work activities, duration or materials used. Can you let me know if this is acceptable, and if so, please issue an extended licence?

Yours sincerely,

Phil Sherry
CMAL Project Manager
