This licence is granted for permitting disturbance of the above named species as a result of the following activities:

Geophysical survey with the use of Sub-Bottom Profiler (SBP) and Side Scan Sonar (SSS)

LICENCE CONDITIONS

1. The Licensee must ensure that all licensed activities are carried out in strict accordance with the mitigation and working methods proposed in the application for this licence, together with supporting information and all licensed activities must be carried out within the timescale(s) given within the application and any subsequent written correspondence between Marine Directorate – Licensing Operations Team ("MD-LOT") and the applicant, but subject to the following modifications or amendments made within this licence.
2. The Licensee must ensure that all licensed activities are carried out in strict accordance with the EPS and Protected Sites & Species Risk Assessment Report (Document number A-304174-S00-A-REPT-001).
3. In the event of the Licensee becoming aware that any of the information on which the issue of this licence was based has changed, the Licensing Authority must be notified as soon as reasonably practicable.

4. The Licensee must ensure that the Joint Nature Conservation Committee ("JNCC") 2017 Guidelines for minimizing the risk of injury and disturbance to marine mammals from seismic surveys is followed at all times in connection with the undertaking of such surveys as far as it is practical to do so. These are available from the JNCC website <https://hub.jncc.gov.uk/assets/e2a46de5-43d4-43f0-b296-c62134397ce4>.
5. The Licensee must ensure that, if any aspects of the proposed activities differ from the detail submitted in the Noise Registry - Initial Registration Form, a new Initial Registration Form must be completed and submitted to the Scottish Ministers and the JNCC no later than one week prior to commencement of the licensed activities.
6. The Licensee must ensure that where survey equipment has the capability to undergo a soft start procedure, this is implemented on every occasion survey equipment is switched on.
7. Except where it is not relevant to the provisions of this licence, the Licensee must ensure that the Scottish Marine Wildlife Watching Code is adhered to at all times.
8. The Licensee must ensure that copies of the licence are available for inspection by any person authorised by the Scottish Ministers at the office of the Licensee and at all sites where licensed activities are taking place.
9. Any person authorised by the Scottish Ministers must be permitted to inspect the operations relating to the licence at any reasonable time. The Licensee must allow appropriate assistance to facilitate inspection.
10. The Licensee must, no later than one month after the expiry date of this licence, submit to MD-LOT, a written report detailing all actions taken in accordance with the specified terms and conditions of the licence. This report must detail the procedures, visual observations and include the original Marine Mammal Recording Form(s). Any difficulties encountered, or recommendations should also be noted.
11. The Licensee must, no later than 12 weeks after completion of the noisy activity, complete a 'close-out' noise registry form. This is available from the JNCC website <https://mnr.jncc.gov.uk/>.
12. The Licensee must utilise a suitably qualified Marine Mammal Observer at all times during the course of the Licensed Activities. The Licensee must ensure that the Marine Mammal Observer has the power to stop the Licensed Activity at any time should they recommend doing so.
13. The Licensee must undertake, prior to the commencement of any licensed activity, a 30-minute pre-data acquisition survey to monitor for the presence of cetaceans and seals. This must be undertaken through the use of Passive Acoustic Monitoring during night-time operations or in conditions of poor visibility (sea states above 3).

- 14. The Licensee must delay the start of any licensed activities by at least 20 minutes if any cetaceans or seals observed within a 500m mitigation zone in all instances (not just when recommended by MMO).
- 15. The Licensee must utilise soft start procedures, where equipment allows, for any equipment that is inactive for any period greater than 10 minutes.
- 16. The Licensee must conduct surveys from shore outwards to allow any potentially disturbed cetaceans to be directed away from shore.
- 17. The Licensee must ensure that the equipment is used at the lowest practical sound level and over the shortest period of time that still enables the survey objectives to be met.
