Dear Jessica,

European Offshore Wind Deployment Centre Section 36 Consent Condition 13.

Please find enclosed for approval the Construction Method Statement (CMS) prepared on behalf of Aberdeen Offshore Wind Farm Ltd (AOWFL).

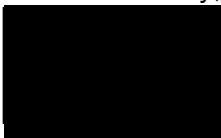

The purpose of the CMS is to provide the regulatory authority details of the measures that will be used to appropriately manage the construction of the Development, taking into account mitigation measures to protect the environment and other users of the marine area.

It is considered that the enclosed CMS is sufficient to satisfy the requirements of Section 36 Consent Condition 13, providing that the CMS is implemented as approved.

We would be grateful if MS-LOT, on behalf of the Scottish Ministers, could please confirm in writing, following consultation, their approval of the enclosed CMS and that in this respect Section 36 Consent Condition 13 is fully discharged.

Should MS-LOT or consultees have any comments on the enclosed CMS, we would welcome them at your earliest convenience.

Yours sincerely,

Esther Villoria

Environment and Consents Manager
