MONDAY 27.04.2020

Client : Mark Maclean

**SUBJECT: Seabed Survey**

**LOCATION: Loch Crearan – N 56`31`09.9 W 005`20`35.4**

On behalf of KMASS Marine Ltd we can confirm that on the 21/02/20 we conducted a seabed survey on behalf of our client Mark Mark Maclean who has a mooring in this location

Our findings are a mixture of clay mud and shale seabed at a water depth of 9 meters approximate.

All Kmass Marine divers have been fully briefed and shown pictures of the invasive species *Didemnum vexillum*, carpet Sea- Squirt..

We can confirm that on the 27.04.2020 we found no Invasive species in this area. Kmass procedure on finding *Didemnum vexillum* would be to take a digital photo to document our findings ,we would also notify ( SEARS ) of the approximate location.

If you require any further information, please do not hesitate to contact me on 07824504774 or [kmassmarine@gmail.com](mailto:kmassmarine@gmail.com)

Yours sincerely,

Kevin Healey  
Director of KMASS Marine Ltd
