## GLOSSARY OF TERMS

Term	Description
MachairWind Offshore Windfarm	An offshore windfarm capable of exporting around 2 GW of renewable energy to the National Electricity Transmission System. MachairWind Offshore Windfarm comprises three Development Areas. The Windfarm Development Area is located on the west coast of Scotland to the northwest of Islay and west of Colonsay and the working assumption is that the MachairWind Offshore Windfarm will connect to a location within South Ayrshire. Work is ongoing to define the Offshore Transmission Development Area and Onshore Transmission Development Area. Separate consent and licence applications will be submitted for each Development Area.
The Project	MachairWind Offshore Windfarm.
Windfarm Development Area (WDA)	The application boundary within which consent will be sought for the WDA Infrastructure. The WDA is subject to a Section 36 consent and Marine Licence(s) application which is being applied for separately from the OfTDA and OnTDA.

## 1. STAKEHOLDER ENGAGEMENT LOG

1. This Appendix lists the engagement activities (meetings, seminars, workshops and conferences) that have been undertaken since the point of option agreement award in January 2022; Table 1.1 presents this information in chronological order. This Appendix should be read in conjunction with both **Chapter 5 Consultation and Stakeholder Engagement** of the Scoping Report and **Appendix L Windfarm Development Area Stakeholder Engagement Plan. Section 5.3** of the Scoping Report provides details of the activities introducing stakeholders to the Project and Project team from the earliest stage of development.
