Subject: AOWFL - Notice of Intention to Carry Out an Exempted Activity

Dear Sir/Madam

Marine Scotland Licensing Operations Team (MS-LOT) have received the attached proposal for a geotechnical investigation at the location of the European Offshore Wind Deployment Centre (EOWDC) from Aberdeen Offshore Windfarm Limited (AOWFL).

As this will entail a removal activity which is carried out for the purpose of sediment sampling, it could potentially be an exempt activity under Part 3, Article 18B of The Marine Licensing (Exempted Activities) (Scottish Inshore Region) Order 2011 (as Amended) (available online, [here](#) and amended [here](#)).

In order for MS-LOT to assess whether this activity is exempt we would welcome your comments on this proposal. Should you have any comments on this proposal, I would be very grateful if they could be forwarded to MS LOT in an electronic format to MS.MarineRenewables@gov.scot before the 10th June.

Yours faithfully

Jessica Drew

MARINE (SCOTLAND) ACT 2010, PART 4 MARINE LICENSING

Dear Jessica

Thank you for your Email dated 27 May 2016 advising of the intention by **Aberdeen Offshore Windfarm Limited** to carry out geotechnical investigation within the cable corridor and site area of marine works associated with the European Offshore Wind Development Centre, Aberdeen Bay.

With regard to the consultation, NLB have no objection to the request to carry out this exempted activity, and are content that a Local Notice to Mariners and Radio Navigation warning will be promulgated prior to the commencement of the work in order that the Mariner is informed of the nature and duration of the works.

Please advise if we can be of any further assistance, or require clarification any of the above.
