### MD-LOT Basking Shark Licence Case Handling Report

**Licence Number:** 00010399

**Licensing Officer:** <Redacted>

<b>Site</b>	West Highland Marine Region
<b>Company</b>	Scottish Hydro Electric Distribution Plc. Inveralmond House 200 Dunkeld Road Perth PH1 3AQ
<b>Applicant</b>	<Redacted>
<b>Brief Description of Project</b>	Geophysical Surveys of cable routes
<b>Associated Licences</b>	EPS Licence 00010398

<b>Species</b>	Basking Shark ( <i>Cetorhinus maximus</i> )
<b>Inshore/Offshore</b>	Inshore

<b>TEST 1</b>	<b>Purpose of licence</b>
	Imperative reasons of overriding public interest (including those of a social or economic nature and beneficial consequences of primary importance for the environment)
<b>Comments</b>	
<p>With regard to Test 1 there are several different purposes for which a Basking Shark licence can be granted including, under Section 16(3)(i) of the Wildlife and Countryside Act 1981, for 'a social, economic or environmental purpose'.</p> <p>The proposed activity addresses a specific need in relation to maintaining the electricity supply for remote communities. Surveying existing cables and potential new cable routes ensures the reliability of electrical supply to remote communities for both domestic and commercial customers. Ensuring reliable electricity provides a social and economic benefit to remote communities.</p> <p>The applicant holds the licence under the Electricity Act 1989 for the distribution of electricity in the north and west of Scotland including the islands. It has a statutory duty to provide an economic and efficient system of distribution of electricity and to ensure assets are maintained to ensure a safe, secure and reliable supply to customers.</p>	
<b>Test 1 satisfied?</b>	YES

<b>TEST 2</b>	<b>Other Satisfactory Solutions</b>
---------------	-------------------------------------

<b>Comments</b>	
Section 16(1A)(a) of the Wildlife and Countryside Act 1981 requires the Scottish Ministers to be satisfied that there is no other satisfactory solution before a Basking Shark Licence can be issued for the Licensable Operations.	
The applicant has considered using divers and underwater cameras, however in this instance, it was not considered suitable as it would not provide the same range of functions as the survey. The applicant considers the survey as the only way to ensure reliable electricity to remote communities.	
Given the critical nature of the infrastructure being maintained and developed the 'do-nothing' alternative in this case (ie not to complete the survey) is not feasible as this may compromise electricity supplies to remote communities.	
<b>Test 2 satisfied?</b>	YES

<b>TEST 3</b>	<b>Favourable Conservation Status ("FCS")</b>
<b>Comments</b>	
NatureScot has concluded in its advice of 16 June 2023 that the activity will not be detrimental to the maintenance of the populations of the species concerned at Favourable Conservation Status (FCS) in their natural range if the mitigation measures within the Protected Species Mitigation Plan are adhered to.	
<b>Test 3 satisfied?</b>	YES

**Date application received:** 28/04/2023
