

Marine Licence Application for Finfish and Shellfish Farms

Version 1.0

Marine (Scotland) Act 2010

Acronyms

Please note the following acronyms referred to in this application form:

MHWS	Mean High Water Springs
MS-LOT	Marine Scotland – Licensing Operations Team
WGS84	World Geodetic System 1984

Explanatory Notes

The following numbered paragraphs correspond to the questions on the application form and are intended to assist in completing the form. These explanatory notes are specific to this application and so you are advised to read these in conjunction with the Marine Scotland Guidance for Marine Licence Applicants document.

1. Applicant Details

The person making the application who will be named as the licensee.

2. Agent Details

Any person acting under contract (or other agreement) on behalf of any party listed as the applicant and having responsibility for the control, management or physical deposit or removal of any substance(s) or object(s).

3. Payment

Indicate payment method. Cheques must be made payable to: The Scottish Government.

Marine licence applications will not be accepted unless accompanied by a cheque for the correct application fee, or if an invoice is requested, until that invoice is settled. Target timelines for determining applications do not begin until the application fee is paid.

4. Application Type

Indicate if the application is for a new marine farm site or an existing marine farm site. Provide the existing or previous consent/licence number and expiry date if applicable.

5. Marine Farm Details

- (a) Indicate the type of marine farm, either finfish or shellfish.
- (b) Indicate the deposits of marine farm component parts/equipment as a number (e.g 4 ring cages). Provide details of any component parts/equipment not included in the list and specify the quantity as a number.
- (c) If applicable, indicate the removals of marine farm component parts/equipment as a number (e.g 4 ring cages). Provide details of any component parts/equipment not included in the list and specify the quantity as a number.
- (d) Provide the proposed start date for installation of the marine farm. The start date will not be backdated, since to commence a project for which a licence has not been obtained will constitute an offence, which may result in appropriate legal action. A licence is normally valid for 6 years. **Target duration for determination of a marine licence application is 14 weeks.**
- (e) Provide the cost of the works seawards of the tidal limit of MHWS. This estimate should only cover work taking place below the tidal level of MHWS and must take into consideration the cost of materials, labour fees etc.
- (f) Describe the location of the proposed works. Include a list of the latitude and longitude co-ordinates (WGS84) of the boundary points of the moorings area and for each of the component parts of the marine farm, including sub-surface equipment. WGS84 is the World Geodetic System 1984 and the reference co-ordinate system used for marine licence applications. Co-ordinates taken from GPS equipment should be set to WGS84. Coordinates taken from recent admiralty charts will be on a WGS84 compatible datum. Ordnance survey maps do not use WGS84.

Example: For positions read from charts the format should be as in the example: 55°55.555'N 002°22.222'W (WGS84). The decimal point specifies that decimals of minutes are used and the datum is stated explicitly. If seconds are used then the format should be as in the example: 55°55'44"N 2°22'11"W (WGS84).

It is important that the correct positions, in the correct format, are included with this application, as any errors will result in the application being refused or delayed.

To supplement your application, please provide a suitably scaled extract of an Ordnance Survey Map (1:2,500 scale but not more than 1:10,000) or Admiralty Chart which must be marked to indicate:

- the full extent of the works in relation to the surrounding area;
- latitude and longitude co-ordinates defining the location of the works;
- the level of MHWS;

Drawings and plans will be consulted upon. If they are subject to copyright, **it is the responsibility of the applicant to obtain necessary approvals to reproduce the documents and to submit suitably annotated copies with the application.**

- (g) Indicate if the marine farm is located within the jurisdiction of a statutory harbour authority and provide details of the statutory harbour authority where relevant.
- (h) Provide assessment of the potential impacts the works may have on navigation, including interference with other uses of the sea.

Where there are potential impacts from the works, please provide details of proposed mitigation in response to potential impacts.

6. Planning Permission

Indicate if you have, or if you are in the process of applying for, planning permission for the marine farm. Provide the reference number for the planning application if applicable and/or supply a copy of the planning permission along with the completed application form.

Marine licence applications will not be determined without valid planning permission.

7. Scotland's National Marine Plan

Scotland's National Marine Plan has been prepared in accordance with the EU Directive 2014/89/EU, which came into force in July 2014. The Directive introduces a framework for maritime spatial planning and aims to promote the sustainable development of marine areas and the sustainable use of marine resources. It also sets out a number of minimum requirements all of which have been addressed in this plan. In doing so, and in accordance with article 5(3) of the Directive, Marine Scotland have considered a wide range of sectoral uses and activities and have determined how these different objectives are reflected and weighted in the marine plan. Land-sea interactions have also been taken into account as part of the marine planning process. Any applicant for a marine licence should consider their proposals with reference to Scotland's National Marine Plan. A copy of Scotland's National Marine Plan can be found at: <http://www.gov.scot/Publications/2015/03/6517/0>

Indicate whether you have considered the project with reference to Scotland's National Marine Plan and provide details of considerations made including reference to the policies that have been considered. If you have not considered the project with reference to Scotland's National Marine Plan please provide an explanation.

8. Consultation (other than carried out under pre-application consultation)

Provide details of all bodies consulted and give details of any consents issued including date of issue.

9. Associated Works

Indicate whether the application is associated with any other marine projects (e.g. pontoon, moorings etc). If this is the case, provide reference/licence number for the related marine projects.

Marine Licence Application for Finfish and Shellfish Farms

Version 1.0

Marine (Scotland) Act 2010

It is the responsibility of the applicant to obtain any other consents or authorisations that may be required.

Under Section 54 of the Marine (Scotland) Act 2010, all information contained within and provided in support of this application will be placed on a Public Register. There are no national security grounds for application information not going on the Register under the 2010 Act.

Public Register

Do you consider that any of the information contained within or provided in support of this application should not be disclosed:

(a) for reasons of national security; YES NO

(b) for reasons of confidentiality of commercial or industrial information where such confidentiality is provided by law to protect a legitimate commercial interest? YES NO

If **YES**, to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld.

WARNING

It is an offence under the Act under which this application is made to fail to disclose information or to provide false or misleading information.

5. Marine Farm Details

(a) Type of marine farm:

Finfish Shellfish

(b) Deposits of component parts/equipment:

Component Parts/Equipment	Quantity	Dimensions (metres)
Ring cages	12	100m circumference
Square pens		
Longlines		
Feed barges	1	22.4 x 22.4
Feedpipes (to shore)		
Grid moorings	22	7x95m length; 4x115.5m length; 7x129m; 4x112m
Boat moorings		
Rafts		
Pontoons		
Marked Buoys		
Other (please specify)		

(c) Removals of component parts/equipment (if applicable):

Component Parts/Equipment	Quantity	Dimensions (metres)
Ring cages	14	80m circumference
Square pens		
Longlines		
Feed barges	1	hexagonal
Feedpipes (to shore)		
Grid moorings	24	124m (max mooring leg length)
Boat moorings		
Rafts		
Pontoons		
Marked Buoys		
Other (please specify)		

(d) Proposed start date (Target duration for determination of a marine licence application is 14 weeks):

March 2025

(e) Cost of the works seawards of the tidal limit of MHWS:

Redacted

(f) Location:

Caolas Loch Portain Marine Fish Farm, North Uist

(g) Is the marine farm located within the jurisdiction of a statutory harbour authority YES NO

If YES, please specify statutory harbour authority:

(h) Potential impacts the works may have on navigation and proposed mitigation in response to potential impacts (continue on separate sheet if necessary):

The Caolas site in this location is long established and the increase in the proposed Mooring Containment Area (MCA) is only 0.45% compared to the current MCA. There are no anchorages in the immediate vicinity of the site (the nearest formal anchorage is over 1km away; straight line distance) and the proposed amendment to the MCA is not anticipated to be significant relative to any activities of inshore fisheries that operate within the area. The Cal Mac ferry service between Uig, Skye and Lochmaddy runs approximately 2 km to the south of the site and the proposed amendments to the site are considered unlikely to cause navigational issues to this service. If consented, the site will be lit and marked as per NLB requirements. The proposed modification is not anticipated to displace any aspect of socio-economic activity and historically there have been no conflicts of interest between ongoing fishing and aquaculture activities in this area.

6. Planning Permission

Do you have planning permission for the marine farm?

YES NO

If YES, please supply a copy of the planning permission

If NO, please provide details of planning application, including reference number:

A planning application was submitted to Comhairle nan Eilean Siar (Western Isles Council) on 04/07/2024 (24/00251/FFPA)

Marine licence applications will not be determined without valid planning permission.

7. Scotland's National Marine Plan

Have you considered the application with reference to Scotland's National Marine Plan?

YES NO

If YES, provide details of considerations made including reference to the policies that have been considered:

The farm is aligned with the NMP's general marine planning policies as follows:
Gen 2 and 3: The farm will provide socio-economic benefits to Scottish communities through provision of skilled employment and training opportunities and via contributing to maintaining population levels in a remote rural area.
The farm is aligned with the NMP's aquaculture-specific marine planning policies as follows:
Policies 1,2,3,5,6,7,8: The current site has been in operation since the 1990s. The proposed redevelopment was designed to minimise impacts relating to carrying capacity/locality guidelines, visual amenity, disease management areas, wild fish impacts and seal haulout sites. All required modelling and assessment has been undertaken and the site is considered to be within required limits.
Policy 9: Emergency response plans are in place
Policy 10: Pre-application consultation will be conducted as part of the planning application determination process
Policy 11: The site equipment will be compliant with Marine Scotland Technical Standards for aquaculture. The hybrid-electric feedbarge will reduce generator run-time and associated emissions.
Policy 12: Cleaner fish (wrasse) will be used at the site for biological control of sealice, as part of a strategy of wider sealice controls, which also includes the use of freshwater treatments as alternatives to medicinal/chemical treatments.
Policy 14: Community benefits from the site will include direct, indirect and induced socio-economic benefits to local communities through provision of employment and wages to staff employed by farm operations in the Sutherland area and other local and regional companies/suppliers providing supply chain services (e.g. fuel, haulage, equipment, accommodation etc).

If **NO**, please provide an explanation of why you haven't considered the National Marine Plan?

8. Consultation

List all bodies you have consulted and provide copies of correspondence:

Consultation will take place as part of the planning application process and the comments arising from this process will be available on the Local Authority Comhairle nan Eilean Siar planning portal using reference 24/00251/FFPA.

9. Associated Works

Provide details of other related marine projects, including reference/licence numbers (if applicable):

Not applicable
