

Marine Licence Application for Moorings

Version 1.0

Marine (Scotland) Act 2010

It is the responsibility of the applicant to obtain any other consents or authorisations that may be required.

Under Section 54 of the Marine (Scotland) Act 2010, all information contained within and provided in support of this application will be placed on a Public Register. There are no national security grounds for application information not going on the Register under the 2010 Act

Public Register

Do you consider that any of the information contained within or provided in support of this application should not be disclosed:

- (a) for reasons of national security; YES ☐ NO ☒
- (b) for reasons of confidentiality of commercial or industrial information where such confidentiality is provided by law to protect a legitimate commercial interest? YES ☐ NO ☒

If **YES**, to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld.

WARNING

It is an offence under the Act under which this application is made to fail to disclose information or to provide false or misleading information.

Target duration for determination is 14 weeks. Please note that missing or erroneous information in your application and complications resulting from consultation may result in the application being refused or delayed.

Marine licence applications will not be accepted unless accompanied by a cheque for the correct application fee, or if an invoice is requested, until that invoice is settled. Target timelines for determining applications do not begin until the application fee is paid.

(i) Potential impacts the works may have (including details of areas of concern e.g designated conservation and shellfish harvesting areas) and proposed mitigation in response to potential impacts (continue on separate sheet if necessary):

There are no known impacts from positioning one extra mooring in this narrows. (there is only one other mooring nearby now..for a local creel boat). Local boats have traditionally been anchored and/or moored in the narrows for many generations. Registered creel fishermen who use this narrows to land catches at Ardtoe pier have been notified of this plan - consulted verbally. None have shown objections. Local small-boat owners have not indicated any reservations about the positioning of a fresh mooring for this single local yacht in this location. The narrows are mostly too shallow at Low water springs for most fin keel leisure craft to remain afloat. Near low tide there is too little depth to enable navigation for any large boat southwards, beyond this spot, or to enter the inner Kentra bay. The minimum usual depth at this chosen location has been established at approx 2.5 mtrs - Sufficient at LAT for this traditionally built, veteran wooden vessel(with draft of 1.45 m) to remain afloat constantly.

6. Scotland's National Marine Plan

Have you considered the application with reference to Scotland's National Marine Plan?

YES ☒ NO ☐

If **YES**, provide details of considerations made including reference to the policies that have been considered:

This is a shallow tidal narrows with seafloor sand-banks that shift and alter profile in the tidal streams. This part is never used for commercial fishing or aquaculture. No conservation designations are known that apply to Leisure use of this central part of the Ardtoe, Kentra bay narrows.

If **NO**, please provide an explanation of why you haven't considered the National Marine Plan?

7. Consultation

List all bodies you have consulted and provide copies of correspondence:

Crown Estate (Bidwells) for seabed location permit. Provisional location consent agreed to commence in 2022, delivered by email correspondence dated 22 Sept 2021

8. Associated Works

Provide details of other related marine projects, including reference/licence numbers (if applicable):
