

Marine Licence Application for Finfish and Shellfish Farms

Version 1.0

Marine (Scotland) Act 2010

Acronyms

Please note the following acronyms referred to in this application form:

MHWS	Mean High Water Springs
MS-LOT	Marine Scotland – Licensing Operations Team
WGS84	World Geodetic System 1984

Explanatory Notes

The following numbered paragraphs correspond to the questions on the application form and are intended to assist in completing the form. These explanatory notes are specific to this application and so you are advised to read these in conjunction with the Marine Scotland Guidance for Marine Licence Applicants document.

1. Applicant Details

The person making the application who will be named as the licensee.

2. Agent Details

Any person acting under contract (or other agreement) on behalf of any party listed as the applicant and having responsibility for the control, management or physical deposit or removal of any substance(s) or object(s).

3. Payment

Indicate payment method. Cheques must be made payable to: The Scottish Government.

Marine licence applications will not be accepted unless accompanied by a cheque for the correct application fee, or if an invoice is requested, until that invoice is settled. Target timelines for determining applications do not begin until the application fee is paid.

4. Application Type

Indicate if the application is for a new marine farm site or an existing marine farm site. Provide the existing or previous consent/licence number and expiry date if applicable.

5. Marine Farm Details

- (a) Indicate the type of marine farm, either finfish or shellfish.
- (b) Indicate the deposits of marine farm component parts/equipment as a number (e.g 4 ring cages). Provide details of any component parts/equipment not included in the list and specify the quantity as a number.
- (c) If applicable, indicate the removals of marine farm component parts/equipment as a number (e.g 4 ring cages). Provide details of any component parts/equipment not included in the list and specify the quantity as a number.
- (d) Provide the proposed start date for installation of the marine farm. The start date will not be backdated, since to commence a project for which a licence has not been obtained will constitute an offence, which may result in appropriate legal action. A licence is normally valid for 6 years. **Target duration for determination of a marine licence application is 14 weeks.**
- (e) Provide the cost of the works seawards of the tidal limit of MHWS. This estimate should only cover work taking place below the tidal level of MHWS and must take into consideration the cost of materials, labour fees etc.
- (f) Describe the location of the proposed works. Include a list of the latitude and longitude co-ordinates (WGS84) of the boundary points of the moorings area and for each of the component parts of the marine farm, including sub-surface equipment. WGS84 is the World Geodetic System 1984 and the reference co-ordinate system used for marine licence applications. Co-ordinates taken from GPS equipment should be set to WGS84. Coordinates taken from recent admiralty charts will be on a WGS84 compatible datum. Ordnance survey maps do not use WGS84.

Example: For positions read from charts the format should be as in the example: 55°55.555'N 002°22.222'W (WGS84). The decimal point specifies that decimals of minutes are used and the datum is stated explicitly. If seconds are used then the format should be as in the example: 55°55'44"N 2°22'11"W (WGS84).

It is important that the correct positions, in the correct format, are included with this application, as any errors will result in the application being refused or delayed.

To supplement your application, please provide a suitably scaled extract of an Ordnance Survey Map (1:2,500 scale but not more than 1:10,000) or Admiralty Chart which must be marked to indicate:

- the full extent of the works in relation to the surrounding area;
- latitude and longitude co-ordinates defining the location of the works;
- the level of MHWS;

Drawings and plans will be consulted upon. If they are subject to copyright, **it is the responsibility of the applicant to obtain necessary approvals to reproduce the documents and to submit suitably annotated copies with the application.**

- (g) Indicate if the marine farm is located within the jurisdiction of a statutory harbour authority and provide details of the statutory harbour authority where relevant.
- (h) Provide assessment of the potential impacts the works may have on navigation, including interference with other uses of the sea.

Where there are potential impacts from the works, please provide details of proposed mitigation in response to potential impacts.

6. Planning Permission

Indicate if you have, or if you are in the process of applying for, planning permission for the marine farm. Provide the reference number for the planning application if applicable and/or supply a copy of the planning permission along with the completed application form.

Marine licence applications will not be determined without valid planning permission.

7. Scotland's National Marine Plan

Scotland's National Marine Plan has been prepared in accordance with the EU Directive 2014/89/EU, which came into force in July 2014. The Directive introduces a framework for maritime spatial planning and aims to promote the sustainable development of marine areas and the sustainable use of marine resources. It also sets out a number of minimum requirements all of which have been addressed in this plan. In doing so, and in accordance with article 5(3) of the Directive, Marine Scotland have considered a wide range of sectoral uses and activities and have determined how these different objectives are reflected and weighted in the marine plan. Land-sea interactions have also been taken into account as part of the marine planning process. Any applicant for a marine licence should consider their proposals with reference to Scotland's National Marine Plan. A copy of Scotland's National Marine Plan can be found at: <http://www.gov.scot/Publications/2015/03/6517/0>

Indicate whether you have considered the project with reference to Scotland's National Marine Plan and provide details of considerations made including reference to the policies that have been considered. If you have not considered the project with reference to Scotland's National Marine Plan please provide an explanation.

8. Consultation (other than carried out under pre-application consultation)

Provide details of all bodies consulted and give details of any consents issued including date of issue.

9. Associated Works

Indicate whether the application is associated with any other marine projects (e.g. pontoon, moorings etc). If this is the case, provide reference/licence number for the related marine projects.

Marine Licence Application for Finfish and Shellfish Farms

Version 1.0

Marine (Scotland) Act 2010

It is the responsibility of the applicant to obtain any other consents or authorisations that may be required.

Under Section 54 of the Marine (Scotland) Act 2010, all information contained within and provided in support of this application will be placed on a Public Register. There are no national security grounds for application information not going on the Register under the 2010 Act.

Public Register

Do you consider that any of the information contained within or provided in support of this application should not be disclosed:

(a) for reasons of national security; YES ☐ NO ☒

(b) for reasons of confidentiality of commercial or industrial information where such confidentiality is provided by law to protect a legitimate commercial interest? YES ☐ NO ☒

If **YES**, to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld.

WARNING

It is an offence under the Act under which this application is made to fail to disclose information or to provide false or misleading information.

Target duration for determination is 14 weeks. Please note that missing or erroneous information in your application and complications resulting from consultation may result in the application being refused or delayed.

Marine licence applications will not be accepted unless accompanied by a cheque for the correct application fee, or if an invoice is requested, until that invoice is settled. Target timelines for determining applications do not begin until the application fee is paid.

Declaration

I declare to the best of my knowledge and belief that the information given in this form and related papers is true.

Application Check List

Please check that you provide all relevant information in support of your application, including but not limited to the following:

- Completed and signed application form ☒
- Project Drawings ☒
- Maps/Charts ☒
- Co-ordinates of the boundary points of the area of harbour jurisdiction (if you are a statutory harbour authority) ☐
- Copy of planning permission (if applicable) ☐
- Additional information e.g. photographs, consultation correspondence (if applicable) ☒
- Payment (if paying by cheque) ☐

1. Applicant Details

Title: **Dr** Initials: **CA** Surname: **Roberts**

Trading Title (if appropriate): **Cooke Aquaculture Scotland Ltd**

Address: **C/o Avondale House, Phoenix Crescent, Strathclyde Business Park, Bellshill,
ML4 3NJ**

Name of contact (if different):

Telephone No. (inc. dialing code):

Email: **caroline.roberts@cookeaqua.com**

Statutory Harbour Authority? YES ☐ NO ☒

If **YES**, please provide a list of the latitude and longitude co-ordinates (WGS84) of the boundary points of the area of harbour jurisdiction using Appendix 01 Additional Co-ordinates form if necessary.

2. Agent Details (if any)

Title: Initials: Surname:

Trading Title (if appropriate):

Address:

Name of contact (if different):

Telephone No. (inc. dialing code):

Email:

3. Payment

Enclosed Cheque ☐ Invoice ☒

Contact and address to send invoice to:

Applicant ☐ Agent ☐ Other ☒

If **OTHER**, please provide contact details:

Title: **Ms** Initials: **C** Surname: **Soulsby**

Address: **Unit 2.12 to 2.14, Warwick Mill Business Village, Warwick Bridge, Carlisle,
Cumbria, CA4 8RR**

Email: **ap.casl@cookeaqua.com**

4. Application Type

Is this application for a new marine farm site or an existing marine farm site:

New Site ☐ Existing Site ☒

If an **EXISTING SITE**, please provide the consent/licence number and expiry date:

Consent/Licence Number	Expiry Date
MS-00008805	09 October, 2026

5. Marine Farm Details

(a) Type of marine farm:

Finfish ☐ Shellfish ☒

(b) Deposits of component parts/equipment:

Component Parts/Equipment	Quantity	Dimensions (metres)
Ring cages		
Square pens		
Longlines	9	270
Feed barges		
Feedpipes (to shore)		
Grid moorings	18 moorings	18 x 35 m = 630 m total length
Boat moorings		
Rafts		
Pontoons		
Marked Buoys		
Other (please specify)		

(c) Removals of component parts/equipment (if applicable):

Component Parts/Equipment	Quantity	Dimensions (metres)
Ring cages	7	90 (circumference)
Square pens		
Longlines		
Feed barges		
Feedpipes (to shore)		
Grid moorings	16	
Boat moorings		
Rafts	3	
Pontoons		
Marked Buoys		
Other (please specify)		

(d) Proposed start date (Target duration for determination of a marine licence application is 14 weeks):

ASAP

(e) Cost of the works seawards of the tidal limit of MHWS:

£2,250

(f) Location:

Basta Voe North, Basta Voe, Yell, Shetland Islands
(see attached chart 'BVN_Mussel_Site_1,5000_WGS84')

Latitude and Longitude co-ordinates (WGS84) defining the boundary points of the moorings area and each of the component parts, including sub-surface equipment, of the marine farm (continue on Appendix 01 Additional Co-ordinates form if necessary):

Additional CO-ordinates form if necessary).

(g) Is the marine farm located within the jurisdiction of a statutory harbour authority

YES ☐ NO ☒

If YES, please specify statutory harbour authority:

(h) Potential impacts the works may have on navigation and proposed mitigation in response to potential impacts (continue on separate sheet if necessary):

Application for change in use of the existing consented finfish farm to a shellfish (mussel) farm at Basta Voe North.

The current Basta Voe North mooring containment area does not encroach on any recognised anchorages, navigation channels or navigational light sectors. The footprint of the shellfish production infrastructure, including moorings, will be located entirely within the current consented mooring containment area (see attached chart 'BVN_Mussel_Site_1,5000_WGS84' and 'Basta Voe North Site Plan 2022').

No objection to the proposed change in use at the existing site was raised by the Northern Lighthouse Board (NLB) in their response to the associated application for planning permission (Reference 2022/001/MAR). As such, further to complying with the navigational marking advice provided by the NLB in their statutory consultee response, and use of equipment suitable for the conditions that meets any technical standards required, we consider that the residual risk to navigation and anchorage is considered negligible and unlikely to result in any significant effects.

6. Planning Permission

Do you have planning permission for the marine farm?
If **YES**, please supply a copy of the planning permission

YES ☐ NO ☒

If **NO**, please provide details of planning application, including reference number:

A planning application for the change of use of an existing consented salmon farm to a mussel farm at Basta Voe, Shetland has been submitted to the Shetland Islands Council and was validated on 18 January 2022 (Reference 2022/001/MAR).

Marine licence applications will not be determined without valid planning permission.

7. Scotland's National Marine Plan

Have you considered the application with reference to Scotland's National Marine Plan?

YES ☒ NO ☐

If **YES**, provide details of considerations made including reference to the policies that have been considered:

Mussel farming contributes to the following objectives from the National Marine Plan:

Objective 1: a sustainable, diverse, economically viable industry which contributes to food security whilst minimising environmental impact (mussels also provide important ecosystem services such as water filtration)

Objective 2: Scotland's shellfish (and specifically mussel) production targets

Objective 3: Provision of quality employment and sustainable economic activity in remote and rural areas (in this instance Yell, Shetland)

The application, which is for a change of use of an existing site (from salmon to mussel production) is also in line with the following aquaculture specific policies from the National Marine Plan (noting not all policies are directly relevant to shellfish production and/or a change in use of an existing site):

Policies 1, 2, 5: The location (within Basta Voe) is not considered to be unsuitable or sensitive (including with respect to landscape and visual impacts) to aquaculture development as evidenced by the existence of consented salmon and mussel farms. There are no landscape designations or seal haul outs within the wider area (Basta Voe and Hascosay Sound). This application is for a change of use of the current Basta Voe North site and hence would not be increasing the number of aquaculture developments within the Voe.

Policy 10: Pre-application consultation has been undertaken with Crown Estate Scotland and Shetland Islands Council. SEPA, NatureScot and Marine Scotland are currently being consulted by the Local Planning Authority as statutory advisors to the planning consent process.

Policy 11: Technical standards for equipment will be adhered to.

If **NO**, please provide an explanation of why you haven't considered the National Marine Plan?

8. Consultation

List all bodies you have consulted and provide copies of correspondence:

Shetland Islands Council Planning (SIC) Authority (Marine) - pre-application consultation via telephone. Planning application (for the change of use of consented site) submitted 12 January 2022; validated 18 January 2022 (Reference 2022/001/MAR).
Crown Estate Scotland - pre-application consultation January 2022
NatureScot, Marine Scotland Science, NLB - via statutory consultee input to the the planning consent process for 2022/001/MAR (under determination)

9. Associated Works

Provide details of other related marine projects, including reference/licence numbers (if applicable):

Not applicable
