11 February 2022

Dear Ms. Monson,

## **MARINE (SCOTLAND) ACT 2010, PART 4 MARINE LICENSING**

### **Archimedes Waveswing Wave Energy Converter, Scapa Flow, EMEC**

#### **Licence to Construct, Alter or Improve Works in the Scottish Marine Area: Marine Licence MS-00009139, Condition 3.2.9**

Thank you for your correspondence requesting that Marine Scotland Licensing Operations Team (“MS-LOT”) gives its written approval to the Emergency Response Cooperation Plan (“ERCoP”) issued on 19 January 2022 (File Name: 21-011).

MS-LOT, on behalf of the Scottish Ministers, is satisfied that the ERCoP has been agreed with the Maritime and Coastguard Agency (“MCA”) in line with condition 3.2.9 of the marine licence.

I can confirm that the ERCoP fulfils the requirements of, and is sufficient to discharge condition 3.2.9 of the marine licence subject to it being implemented. The Licensing Authority therefore confirms its approval of the updated ERCoP (issued 19 January 2022).

The ERCoP is a live document, and it will be updated or amended by the Company, as and when new relevant information becomes available. Any updates or amendments made to this ERCoP by the Company, must be submitted in writing by the Company to the Licensing Authority for their written approval after it is agreed with the MCA in line with the above marine licence condition.

Yours sincerely,

Marc MacFarlane  
Marine Scotland Licensing Operations Team
