Scottish Hydro Electric Transmission Plc
Inveralmond House
Perth
PH1 3AQ

Or any person authorised in writing by him / her to disturb (intentionally or recklessly) *basking sharks* (*Cetorhinus maximus*), located at Orkney Region A, but only subject to the under-noted conditions.

PURPOSE AND CIRCUMSTANCES IN WHICH ACTION IS REQUIRED

This licence is granted for the purpose of permitting the disturbance of *basking sharks* (*Cetorhinus maximus*) at Orkney Region A, for Social, economic or environmental purpose² in connection with Orkney HVAC Link Surveys at the following location(s):

This licence is granted for permitting disturbance of the above named species as a result of the following activities:

Geophysical, Geotechnical & Benthic Surveys

During the period this licence is valid section 9(4A) of the Wildlife and Countryside Act 1981 does not apply to the undertaking of the aforementioned licensed activities by either the Licensee or any person authorised in writing by him / her, which involves or results in the intentional or reckless disturbance of *basking sharks* (*Cetorhinus maximus*), at , provided that such activities are done under and in accordance with the terms of this licence.

LICENCE CONDITIONS

1. The Licensee must ensure that all licensed activities are carried out in strict accordance with the mitigation and working methods proposed in the application for this licence, together with supporting information and all licensed activities must be carried out within the timescale(s) given within the application and any subsequent written correspondence between Marine Directorate – Licensing Operations Team ("MD-LOT") and the applicant, but subject to the following modifications or amendments made within this licence.

2. The Licensee must ensure that all licensed activities are carried out in strict accordance with the Risk Assessment ref A-100782-S00-A-REPT-007
3. In the event of the Licensee becoming aware that any of the information on which the issue of this licence was based has changed, the Licensing Authority must be notified as soon as reasonably practicable.
4. The Licensee must ensure that the Joint Nature Conservation Committee ("JNCC") 2017 Guidelines for minimizing the risk of injury and disturbance to marine mammals from seismic surveys is followed at all times in connection with the undertaking of such surveys as far as it is practical to do so. These are available from the JNCC website <https://hub.jncc.gov.uk/assets/e2a46de5-43d4-43f0-b296-c62134397ce4>.
5. The Licensee must ensure that, if any aspects of the proposed activities differ from the detail submitted in the Noise Registry - Initial Registration Form, a new Initial Registration Form must be completed and submitted to the Scottish Ministers and the JNCC no later than one week prior to commencement of the licensed activities.
6. The Licensee must ensure that where survey equipment has the capability to undergo a soft start procedure, this is implemented on every occasion survey equipment is switched on.
7. Except where it is not relevant to the provisions of this licence, the Licensee must ensure that the Scottish Marine Wildlife Watching Code is adhered to at all times.
8. The Licensee must ensure that copies of the licence are available for inspection by any person authorised by the Scottish Ministers at the office of the Licensee and at all sites where licensed activities are taking place.
9. Any person authorised by the Scottish Ministers must be permitted to inspect the operations relating to the licence at any reasonable time. The Licensee must allow appropriate assistance to facilitate inspection.
10. The Licensee must, no later than one month after the expiry date of this licence, submit to MD-LOT, a written report detailing all actions taken in accordance with the specified terms and conditions of the licence. This report must detail the procedures, visual observations and include the original Marine Mammal Recording Form(s). Any difficulties encountered, or recommendations should also be noted.
11. The Licensee must, no later than 12 weeks after completion of the noisy activity, complete a 'close-out' noise registry form. This is available from the JNCC website <https://mnr.jncc.gov.uk/>.
12. The Licensee must ensure that all equipment is used at the lowest practicable sound level and over the shortest period to achieve the survey objectives and the devices with lower source levels should be used preferentially whenever possible.
13. The Licensee must ensure that the following measures are adhered to if a Unscrewed Arial Vehicles ("UAV) are used in the course of the Licensed Activities:

- Fly no closer than 30 m vertically from a point directly above any marine mammal.
- Not disturb or harass any marine mammal with your drone, e.g. don't chase, herd, or scatter them.
- Not make any sudden or repeated change in speed or direction.
- Not make any loud or disturbing noises near marine mammals.
- Abandon contact at the first sign of any marine mammal being disturbed (e.g. changes in behaviour, fleeing, increased diving, etc).
- Take off at least 100 m from any marine mammal on the shore or the land.
- Have all flight sensors enabled and keep at least 50 m from any other drone. More than one drone over animals causes a heightened collision risk and the welfare of the animals must come first. Where possible communicate with the drone owner and continue the flight only when it is safe to do so.
- During approach, maintain a vertical height of not less than 30 metres (90 ft) above the animals and at a safe, steady speed.
- When ready to return to home, hold your position and vertical height for one minute where possible so that the animals beneath you have swum further away, and then fly back (this point is only relevant at sea).

Authorised on behalf of Scottish Ministers
