Good afternoon.

With regard to the above, I can confirm that after consulting with colleagues and elected Local Members, Fife Council has no comment to make on this matter, other than a comment from a Local Member to the effect that the construction of the jackets etc should be done locally in Fife (at BIFAB) rather than being constructed in Indonesia.

Kind regards,
Martin

Marc,

Thank you for the opportunity to comment on the Construction Programme for the Neart na Gaoithe Offshore Windfarm. The MCA has no concerns regarding the content of the document.

We note the document makes reference to the Emergency Response Cooperation Plan (ERCOP), and would just like to highlight that this should be reviewed and updated in consultation with MCA as the project progresses.

Kind regards

Helen

Subject: RE: Neart na Gaoithe - CoP and CMS Consultation - Response required by 16 October 2019

Dear Sophia,

Neart na Gaoithe Offshore Wind Farm (Revised Design) Discharge of Conditions – Consent Plans

Thank you for your consultation on the 18th September 2019 on the consent plans submitted by Neart na Gaoithe Offshore Wind Limited (NnGOWL) for the purpose of discharging consent conditions. We provide advice on the following plans which have been combined and submitted within document reference NNG-NNG-ECF-PLN-0002:

- Construction Programme (CoP)
- Construction Methods Statement (CMS)

We are content that the CMS and CoP submitted provide, where possible, details of commencement dates, duration and phasing for key elements of construction as well as working areas and techniques. The document acknowledges that key procurement and contractor appointments will not be made until Final Investment Decision (FID) is complete and that these outstanding details will be confirmed in a future revision of the CoP and CMS.

Nevertheless we are content that the document does describe, where possible, the construction programme and procedures as well as construction-related mitigation measures to be employed and in doing so how these align with what was described within the EIA Report and Addendum.

I trust this is of assistance.

Karen

NEART NA GAOITHE OFFSHORE WIND LIMITED – CONSTRUCTION PROGRAMME & CONSTRUCTION METHOD STATEMENT

Thank you for your e-mail correspondence dated 18th September 2019 regarding the Construction Programme (CoP) and Construction Method Statement (CMS) documents submitted by **NearT na Gaoithe Offshore Wind Limited**, in order to satisfy condition 9 and 10 of the section 36 consent (as varied), condition 3.2.2.7 and 3.2.2.13 of the Generating Station marine licence (licence number: 06678/19/1) and condition 3.2.2.8 of the Offshore Transmission Infrastructure marine licence (licence number: 06677/19/0).

Northern Lighthouse Board are content that the documents do satisfy these requirements, and note that the requirements for navigational lighting and marking at the different phases of construction and operation have been referenced throughout the document.

Yours sincerely
