Subject: ised Emergency Response Cooperation Plan (ERCoP) Consultation - by 26/06/2019

Redacted

Thank you for the opportunity to comment on the ERCoP for the Moray East Offshore Windfarm development.

We are content at this stage with the document and will continue to work direct with the developer to ensure the ERCoP remains up to date and fit for purpose throughout each stage of the project, as per MGN 543 and its annexes.

Many thanks

ELECTRICITY ACT 1989

The Electricity Works (Environmental Impact Assessment) (Scotland) Regulations 2017 (as amended)

MARINE (SCOTLAND) ACT 2010 & MARINE AND COASTAL ACCESS ACT 2009, PART 4 MARINE LICENSING

The Marine Works (Environmental Impact Assessment) (Scotland) Regulations 2017 (as amended)

The Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)

Dear Sir/Madam,

Moray Offshore Windfarm (East) Limited (“Moray East”), on behalf of Telford Windfarm Limited, Stevenson Windfarm Limited and MacColl Windfarm Limited, having received consent under the above legislation in order to discharge conditions of their Section 36 consents (as varied), wind farm marine licences, the Offshore Transmission Infrastructure (“OfTI”) marine licence and Offshore Substation Platform (“OSP”) marine licence, have submitted to Marine Scotland Licensing Operations Team (“MS-LOT”) a revision to the post-consent Emergency Response Cooperation Plan (“ERCoP”).

Please find enclosed the proposed revision of the ERCoP which has been updated to focus on the Moray East Offshore Wind Farm construction activities. The purpose of the ERCoP is to satisfy the requirements of the following consent conditions:

- Condition 17 (part f.)* of the Telford Offshore Wind Farm, Stevenson Offshore Wind Farm and MacColl Offshore Wind Farm Section 36 Consents (as varied)
- Condition 3.2.2.18 of the Offshore Substation Platform (“OSP”) Marine Licence (licence number: 06347/17/1)
- Condition 3.2.2.9 (part f.)* of the Offshore Transmission Infrastructure (“OfTI”) Marine Licence (licence number: 05340/14/0)

**Please note that a separate Navigation Safety Plan (“NSP”) has been prepared to satisfy the requirements of the NSP conditions other than part f. for the Section 36 Consents and the OfTI Marine Licence.*

The Decision Letters and Conditions, as well as other relevant documents, can be found on our website, using the following link:
<http://marine.gov.scot/ml/moray-east-offshore-windfarm>

The conditions state that the plan is to be submitted to the Scottish Ministers for their written approval, following consultation with the Maritime and Coastguard Agency (“MCA”) and the Northern Lighthouse Board (“NLB”) and any other navigational advisors or organisations as may be required at the discretion of the Scottish Ministers.

We would appreciate any comments you may have on the attached documents, in order to determine whether it is fit for purpose for the Scottish Ministers to give it their written approval. Please note that we do not seek comments on the section 36 Consents nor the Marine Licences, which will not be amended. Any updates or amendments made to the ERCoP by the Company must be submitted, in writing, by the Company to the Scottish Ministers for their written approval.

If you wish to submit any comments, please do so to MS.MarineRenewables@gov.scot before the **26 June 2019**. If you are unable to meet this deadline please contact MS-LOT on receipt of this email.

Respectfully,
Redacted

MORAY OFFSHORE WINDFARM (EAST) LIMITED

SECTION 36 CONSENT CONDITION 17 (PART F), OSP MARINE LICENCE CONDITION 3.2.2.18 & OFTI MARINE LICENCE CONDITION 3.2.2.9 (EMERGENCY RESPONSE COOPERATION PLAN (ERCoP))

Thank you for your correspondence dated 12th June 2019 regarding the submission by **MORAY OFFSHORE WINDFARM (EAST) LIMITED** of the revised Emergency Response Cooperation Plan (ERCoP), to satisfy the above conditions of consent, relating to the installation and operation of wind turbines, offshore sub-stations and the associated electrical interconnecting and export cables at their wind farm site in the outer Moray Firth.

Northern Lighthouse Board note that this plan applies to the Construction and Operational phases of the windfarm, and that we would require to be consulted on the ERCoP submitted covering the decommissioning phase.

We are content with the details contained within the ERCoP, and are satisfied that recommendations for the marking and lighting for both the construction and operational phases contained within the document are consistent with that of the previously submitted Lighting and Marking Plan (LMP).

We will continue regular communications with **MORAY OFFSHORE WINDFARM (EAST) LIMITED** and their representatives as the project progresses to ensure the mariner is best informed of any works being carried out in relation to the project, and that these are marked in the most appropriate manner.

Please advise if we can be of any further assistance, or require clarification any of the above.

Yours sincerely
