Attn. Claire Crookston

Dear Ms Crookston,

Laminaria Wave Energy Converter: EMEC Billia Croo Berth 2 – Marine Licence Application

Please find attached the Marine Licence application for the installation, operation and decommissioning of the Laminaria Wave Energy Converter at Test Berth 2, at the Billia Croo wave test site, European Marine Energy Centre (EMEC).

The following documentation has been attached in support of the application:

- Completed Marine Licence application form for Marine Renewable Energy Projects
- Project Information Summary (including charts)
- Environmental Report and Project Environmental Monitoring Plan
- Project-specific Navigational Risk Assessment Annex
- Decommissioning Programme
- Construction Method Statement
- Vessel Management Plan
- EMEC's Billia Croo Environmental Description (REP096-04-03)
- EMEC's Billia Croo Navigational Risk Assessment (REP522-01-01)

EMEC is submitting the marine licence application on behalf of Laminaria, and both organisations are happy to discuss the application and proposed work in more detail, if required. Should any of the consultees wish to discuss the application and/or the associated works in greater detail, then please don't hesitate to get in touch or provide them with our details directly.

I would be grateful if you could acknowledge receipt of this application and advise what the associated fee will be, upon which Laminaria will arrange to make payment via BACS.

Please do not hesitate to contact me if you require any further information regarding this application.

Yours sincerely,

Caitlin Long
Environment & Consents Specialist
