

Tarbert Port Expansion

Figure 49.14.02
Screened Zone of Theoretical
Visibility with Landscape Designations

Key

- Proposed infrastructure
- - - 0.5, 1, 2, 5 and 10km development buffers
- Landscape viewpoint
- Corepath
- Sustrans route
- Wild Land Area
- National Scenic Area

Screened visibility of development

Extent of horizontal visibility

- < 2°
- 2 - 5°
- 6 - 10°
- 11 - 20°
- 21 - 30°
- 31 - 40°
- 41 - 50°
- 51 - 60°
- > 60°
- Woodland
- Building

Generated using Ordnance Survey's Terrain 50 Dataset, with OS VectorMapDistrict data used to provide screening obstacles to visibility from woodland blocks at 8m height and buildings at 6m height.

ZTV calculated using ArcGIS 10.3 Viewshed tool with observer eye height 2m above ground and corrections for earth curvature and atmospheric refraction applied.
