Subject: LirIC Interconnector Survey Update and Licence Extension Request
Date: 12 August 2025 15:33:15
Attachments: [image001.png](#)

Dear MD-LOT,

I hope this email finds you well.

We are writing to confirm that we have now successfully completed the geophysical and environmental grab sampling work packages of the LirIC Interconnector marine survey, and our vessels have had to demobilise for the season. We will work in the coming weeks to ensure the remaining submissions/noise registry close out forms are made to ensure compliance with the post-completion consent conditions for the survey work packages that we were able to successfully complete this summer.

Unfortunately, due to unforeseen project constraints, we were unable to carry out the geotechnical elements of the survey as planned. In light of this, we would like to request a six-month extension (up to 2nd Sept 2026) to the following Licences/Exemptions that you have granted us:

- Basking Shark Disturbance License - EPS/BS-00010899
- Licence to Disturb Marine Species - EPS/BS-00010789
- Marine Sediment Sampling Exemption (Granted 3rd May 2024)

This would allow us to take advantage of a suitable weather window in the spring/summer of next year to complete the remaining survey activities. I hope that this will be readily achievable given that this scope of work will remain exactly as previously consented, with no changes to the equipment or methodology outlined in our original submission.

Would such an extension be possible? If so, please let us know if there is any further information or documentation you require from us to support this request.

We look forward to your response.

Kind regards,
