19 October 2016

Our Ref: 009/TIDE/MGIS – 6

Dear Mr Rollings ,

MARINE (SCOTLAND) ACT 2010

MeyGen Limited: Application for the deployment of scientific monitoring equipment, FLOWBEC and HiCUP, in association with the MeyGen Tidal Array in the Inner Sound, Pentland Firth, between the north coast of Scotland and the Island of Stroma

I refer to your application for a licence in respect of the above proposal.

Please find enclosed licence number 06102/16/0. You are advised to carefully check the licence and schedule documents and, if there are any errors, you should contact myself immediately.

Please note however, that this approval does not abrogate your responsibility to obtain the approval of other interested parties.

You should note that the licence includes a condition that the licensing authority must be notified of the dates of commencement and completion of the proposed works. You should also note that the licence includes a condition requiring that a written report should be submitted to the licensing authority detailing all deposits made under authority of the licence. This report should be submitted on form FEP5, and a copy of that form is enclosed.

I would also draw your attention to the licence conditions relating to amendment of the licence or schedule documents. If circumstances arise which necessitate changes or extension to your licence you should advise the licensing authority as soon as possible. After a licence has expired, it cannot be amended or extended in any way, and a new licence application (accompanied by the relevant fee) is required.

Under the Marine Licensing Appeals (Scotland) Regulations 2011 (S.S.I. 2011/203), you are entitled to appeal if you are dissatisfied with any condition in the licence. An appeal may be lodged in any sheriff court in Scotland and must be lodged no later than 21 days after the date of this letter.

Yours sincerely,

Nicola Bain
Marine Scotland – Licensing Operations Team
