

Section two - Register of licensing information and declaration

Important information

It is an offence to fail to disclose information or to provide false or misleading information when making an application.

Target duration for determination is 14 weeks. Note that missing or erroneous information in your application and complications resulting from consultation may result in the application being refused or delayed.

It is your responsibility to obtain any other consents or authorisations that may be required.

Register of licensing information

A register of marine licensing information must be maintained by the licensing authority.

Information must not appear in the register if the licensing authority determines that its disclosure in the register would adversely affect the confidentiality of commercial or industrial information where such confidentiality is provided by law to protect a legitimate commercial interest or, in relation to an application made under the Marine and Coastal Access Act 2009, the Secretary of State determines that its disclosure in the register would be contrary to the interests of national security.

Do you consider that any of the information contained within or provided in support of this application should not be disclosed (mark "X" against the relevant section):	Yes	No
for reasons of national security		X
for reasons of confidentiality of commercial or industrial information where such confidentiality is provided by law to protect a legitimate commercial interest?		X

If yes to either reason, provide full justification as to why all or part of the information you have provided should be withheld.

Declaration

I declare to the best of my knowledge and belief that the information given in this form and related papers is true. [Redacted]

--

9. Consultation

List any person or bodies that you have consulted and provide copies of any correspondence:

as per previous

10. Associated activities

Provide details of other related marine activities, including reference/licence numbers (if applicable):

- (b) that the operation of the fish farm involves the use of relevant equipment¹
(c) the relevant equipment was in use for the purpose of breeding, rearing or keeping finfish or shellfish; and
(d) the relevant equipment was either in use on 23 February 2011 or between 1 January 2008 and 23 February 2011 for the purposes of fish farming.

Please also note the following:

- Planning permission granted by this Order is subject to the condition that in the event of any equipment falling into disrepair or becoming damaged, adrift, stranded, abandoned or sunk in such a manner to cause an obstruction or danger to navigation, the developer shall carry out such works (including lighting, buoying, raising, repairing, moving or destroying the whole or any part of that equipment) so as to remove the obstruction or danger to navigation.
- You no longer have to apply for a Works Licence if your farm is in Orkney or Shetland, but you will still need a Crown Estate lease. You should speak to the Crown Estate if your lease is due for renewal.
- You will not receive any additional documentation relating to the planning permission granted for these sites in the form of stamped maps etc. However, all local authorities and the Crown Estate have been sent copies of these letters and will be aware of those sites which we believe meet the criteria as well as the equipment data which we hold about these sites (as stated overleaf). This will form the baseline for any modifications which you may require to make to your planning permission in the future.

If you have any queries please call me on the above telephone number.

Yours faithfully

Bridget Kelly
