Dear Ms Rei,

THE ELECTRICITY ACT 1989 (AS AMENDED)

MARINE AND COASTAL ACCESS ACT 2009

CONSTRUCTION AND OPERATION OF THE MORAY WEST OFFSHORE WIND FARM AND ASSOCIATED OFFSHORE TRANSMISSION INFRASTRUCTURE, APPROXIMATELY 22.5KM SOUTHEAST FROM THE CAITHNESS COASTLINE

On 14 June 2023, Marine Directorate Licensing Operations Team (“MD-LOT”) received a letter from the Ministry of Defence (“MOD”), on behalf of the Defence Infrastructure Organisation (“DIO”), stating that an Air Traffic Control Radar Mitigation Scheme Agreement (“ATC RMS Agreement”) had been entered into by Moray Offshore Windfarm (West) Limited (“Moray West”) and the MOD on 20 April 2023, which constitutes the Air Traffic Control Radar Mitigation Scheme (“ATC Scheme”).

The letter details the steps taken to reach the ATC RMS Agreement and it also confirms that the ATC RMS Agreement contains sufficient mitigation to enable the MOD to consider that, so long as Moray West complies with the mitigation specified, the ATC RMS Agreement can be regarded as the ATC Scheme specified under condition 21 of the section 36 consent and condition 3.2.2.26 of the associated marine licence.

The letter also confirms that the ATC RMS Agreement comprising the ATC Scheme in respect of the Moray West Offshore Wind Farm is suitable for approval by the Scottish Ministers in accordance with the requirements of the section 36 consent and marine licence.

Therefore, the requirements of condition 21 of the section 36 consent and condition 3.2.2.26 of the marine licence in respect of the ATC Scheme have been fulfilled, and the written confirmation from the MOD is sufficient to discharge the conditions.

MD-LOT, on behalf of the Scottish Ministers, is therefore satisfied and gives its approval to the ATC Scheme entered into through the ATC RMS Agreement between Moray West and MOD. This approval is subject to Moray West's compliance with the terms of the ATC RMS Agreement.

Yours sincerely

Rebecca Ross
Marine Directorate - Licensing Operations Team
