Our ref MS EPS 19/2016/0

Dear Mr Ward,

Application to Disturb Marine Species, MeyGen Ltd.

Further to your application received 20 October 2016 in relation to the deployment of the MeyGen Tidal Energy Project Phase 1 at the MeyGen Tidal Energy Site in the Inner Sound of the Pentland Firth, I can inform you that the conditions for issue of a licence have been met and a copy of the licence, MS EPS 19/2016/0 is enclosed. Please quote the licence number should you require to contact us again regarding this matter.

I am obliged to draw your attention to the conditions contained within the licence, as detailed by our advisors. Under *The Conservation (Natural Habitats, &c.) Amendment (Scotland) Regulations 2007*, it is an offence to fail to comply with those conditions.

You will note that the licence runs to 4th of November 2018. Marine Scotland Licensing Operation Team (MS-LOT) will review the further requirement and associated conditions for an EPS licence at this stage based on monitoring data gathered as a requirement of the PEMP 'MEY -1A-70-HSE-018-I-PEMP'. Please contact MS-LOT at least three months before this licence expires to allow us to complete this process and issue a licence extension.

Yours sincerely,

David J Bova
Licensing Operations Team
Marine Scotland
