Our Ref: 003/OW/BOWL - 8

4 February 2020

Dear Mr Deimel,

**ELECTRICITY ACT 1989**

**MARINE (SCOTLAND) ACT 2010 & MARINE AND COASTAL ACCESS ACT 2009, PART 4 MARINE LICENSING**

**Offshore Transmission Infrastructure Marine Licence: Condition 3.2.2.16  
Section 36 Consent: Condition 37**

Thank you for your correspondence dated 19 April 2019 submitting the 'Marine Archaeological Written Scheme of Investigation & Protocol for Archaeological Discoveries' (WSI & PAD) for the Beatrice Offshore Wind Farm Assets and the Beatrice Offshore Transmission Assets associated with the operational phase of the project.

Marine Scotland Licensing Operations Team (MS-LOT) consulted with Historic Environment Scotland (HES) on both documents. HES responded and requested clarification of the "Environmental Advisor" term within the document which BOWL provided in the updated documents on 16 December 2019 (Ref. LF000005-PLN-724 and Ref. LF000005-PLN-725, Revision 2.0, issued 16/12/2019). HES confirmed that the revisions and clarifications are satisfactory for its requirements.

MS-LOT, on behalf of the Scottish Ministers, can confirm that the revised documents of the WSI & PAD, are sufficient to satisfy the requirements of the conditions and are therefore approved.

Any further updates or amendments made to the aforementioned WSI & PAD for either the wind farm assets or the offshore transmission assets must be submitted in writing the Scottish Ministers for their written approval.

Yours sincerely,

Jessica Wilson
