Request for the extension of Marine Licence MS-00010568

14 November 2024

For the attention of: Louise Treble

Dear Louise,

I am writing to you on behalf of our Client, Caledonian Maritime Assets Ltd, in connection with the New Islay Vessels Enabling Project, Colonsay Ferry Terminal.

A marine licence (MS-00010568) was granted 21 March 2024 to permit any form of dredging and deposit any substance or object, as described in Part 2 of the licence. This licence is due to expire 31st December 2024.

Works are now programmed to extend into 2025. We are now anticipating that dredging works will be completed on the site by late February 2025, however, to allow for any risk of weather delay we are requesting that the above licence be extended to **30th April 2025**.

There have been no changes to the methodology for the activities being undertaken under the licence since the original application, quantities remain unchanged, and mitigations stated within the licence conditions are being maintained.

Please do not hesitate to contact me if you require any further information to progress this extension.

Kind Regards,

Laura Anderson
Civil Engineer
