

DECLARATION UNDER SECTION 36A OF THE ELECTRICITY ACT 1989 RELATING TO PUBLIC RIGHTS OF NAVIGATION SO FAR AS THEY PASS THROUGH THE LOCATIONS IN THE SEA WHERE THOSE STRUCTURES FORMING PART OF DOUNREAY TRI FLOATING WIND DEMONSTRATION PROJECT ARE TO BE PLACED

The Scottish Ministers, in exercise of the powers conferred on them by section 36A of the Electricity Act 1989 (“the Electricity Act”) and all other powers enabling them to do so, make the following declaration.

In accordance with section 36A(1) and 36A(2) of the Electricity Act, the application for this declaration was made to the Scottish Ministers at the same time as an application was made to them by Dounreay Tri Limited (“the Company”) under section 36 of the Electricity Act for the construction and operation of the Dounreay Tri Floating Wind Demonstration Project, which is to comprise of renewable energy installation. This declaration is made at the same time as consent is granted under section 36 of the Electricity Act for the construction and operation of the Dounreay Tri Floating Wind Demonstration Project.

In this declaration the “plan folio” means the plan folio number 1, entitled “Dounreay Tri Site Coordinates”, and signed with reference to this declaration and attached hereto. The Dounreay Tri Floating Wind Demonstration Project is to be constructed within the area delineated on the plan folio by a red box, as more specifically described by a line joining the four coordinates listed in the table attached to this declaration (the “Area”).

Consent under section 36 of the Electricity Act is granted by the Scottish Ministers for the construction and operation of the Dounreay Tri Floating Wind Demonstration Project in the Area, subject to the following parameters:

a) one floating platform with up to 2 turbines

The wind turbines to be constructed in accordance with the consent are identified, for the purposes of section 36A(5)(a) of the Electricity Act, as the proposed renewable energy installation by reference to which this declaration is made (the “Renewable Energy Installation”).

The Scottish Ministers declare that, in accordance with section 36A(3) of the Electricity Act, the public rights of navigation in the Area in so far as they pass through the locations where the Renewable Energy Installation is to be situated, are extinguished.

It is a requirement of the consent (conditions 8 and 10 at **DECISION LETTER AND CONDITIONS, Annex 2**) that the Company must submit to the Scottish Ministers, for their approval, a Construction Programme (“the Programme”) which must set out, amongst other matters, the proposed date for the commencement of the construction of the generating station and a Development Specification and Layout Plan for the Renewable Energy Installation (“the Plan”). The Programme must be submitted to the Scottish Ministers either no later than 6 months prior to the commencement of the construction of the generating station or at a time as agreed with the Scottish

Ministers, and in the case of the Plan no later than 6 months prior to the commencement of the construction of the generating station. In accordance with section 36A(5)(b) of the Electricity Act this declaration shall come into force on a date to be publicised by the Company, the publication of which must be as soon as reasonably practicable following the approval by the Scottish Ministers of the Plan.
