**Subject:** FW: 00000009582 - Staffin Community Trust (per Affric Ltd) - Harbour Development - Staffin Slipway

**For the attention of Jack Versiani Holt**

On behalf of the Staffin Community Council, I would like to confirm our fullest support for the proposals put forward recently regarding the full redevelopment of the slipway at Staffin. In our view, the latest design, concept, and supporting improvements to our local infrastructure will add great value to the area of North East Skye.

The Staffin Trust have done great work and Jock Gordon's designs are worthy of particular praise. Assuming that the appropriate permissions and funding are achieved, we feel confident that once the work has been completed, our local community will have a facility to be proud of. This, in turn, should provide all manner of opportunities to further develop our area for the benefit of Staffin's inhabitants and visitors.

With the kindest regards,

**Simon Clayton**  
**Chair - Staffin Community Council**
